Why Castile Soap?

For generations, Castile soap has been celebrated for its purity and natural cleansing properties. Our 100% plant-based Castile soaps line is made from soothing coconut oil, olive oil, hemp seed oil, organic shea butter, and a mixture of additional high-quality, natural ingredients.

Endlessly versatile, Castile Soap is also gentle on the skin. Our Castile Soaps are made with Certified Organic Shea Butter - while most soaps strip away natural oils and leave your skin feeling dry, ours gently moisturizes as it cleans.

Natural & Free of Toxins Multiple Uses

Our products are 100% plant-based and contain no animal ingredients, artificial colors, parabens, or harsh sulfates, and are cruelty-free.

Castile soap has you covered from head to toe! Our Castile soaps can be used to clean your hands, body, hair, dishes, clothes, pets, and more.

Our Ingredients

100% Natural, Pure, and Simple

Made with coconut and olive oils, and the highest concentration of essential oils, Dr. Natural stands above the rest with its ultra-moisturizing feel in subtle fresh scents and is 30% more affordable than leading brands.

Coconut Oil

Coconut oil is pure, simple, 100% natural and helps make skin and hair look beautiful, healthy, and young. Coconut oil is the perfect choice for natural body care. It creates a luxurious body wash that will leave skin feeling soft and smooth, no matter the season.

Olive Oil

Olive oil is packed with vitamins, minerals, and natural fatty acids. It's an ideal ingredient for all skin types, even sensitive skin. Olive oil is also a powerful ingredient in anti-aging skincare products. Rich in antioxidants, it prevents skin aging, the appearance of fine lines and wrinkles. It nourishes, rejuvenates, and, protects the skin. Rich in vitamins A and E, It helps prolong youth, hydrate the skin, and helps maintains its elasticity and softness.

Retain Glycerin

Glycerin is a clear, viscous liquid that dissolves completely in water. Glycerin is a traditional cosmetic material and has been used for many years because it's safe and effective. We use glycerine in our soap for its moisturizing properties that soften the skin. Glycerin is also a great aid in balancing the cleansing effects of the soap.

Our Ingredients

100% Natural, Pure, and Simple

- Our ingredients are natural and meet Target Clean requirements
- We are committed to a no cruelty policy, ensuring that absolutely no animal testing will ever be utilized to develop any of Dr. Natural's line of products
- All Dr. Natural products are completely free of harsh chemicals including sulfates, parabens, synthetic dyes, and fragrances.

Certified Organic Shea Butter

Organic shea butter has been treasured for centuries as it contains essential nutrients to heal, moisturize, and protect all skin types while restoring elasticity and tone. Our products use USDA-certified organic shea butter. It helps to smoothen the skin and in retaining all its essential oils.

Rosemary Extract

Rosemary essential oil is extracted from the flowering tips of an evergreen plant that is native to the Mediterranean region. It also improves the health of skin, hair, nails, and has an amazing aroma

Tocopherol (Vitamin E)

Vitamin E is an essential part of skincare. It has proven anti-oxidant and anti-inflammatory benefits which can help protect the skin, speed wound healing, and reduce the signs of aging. Vitamin E also helps protect the skin from the effects of damaging UV rays.

What Customers Say

Mary L

I had been using another brand of Castille soap but decided to try this brand because it is cheaper and had great reviews! I'm sure glad I did! I make hand soap and my hands haven't been this soft or healthy in YEARS!! 5 stars isn't enough!!

EcoMom

Absolutely adore this stuff. It's the only hand soap we now use. Similar enough to other natural brands but way more affordable. Huge win on stocking this, Target.

Cynthia

Very happy with purchase. It smells great and leaves ur skin smooth especially when you have very dry skin. Will definitely continue buying more
